Asthma & Clinical Immunology

October 14, 2025

Dear Patients,

After 38 years of practicing medicine, I have reached the decision to retire from medical practice. It has been an incredible privilege to care for you and your families over the years. I have had the unique privilege of taking care of many of you for greater than 30 years, sharing both very difficult and wonderful experiences. I am deeply grateful for the trust you have placed in me, my dedicated staff and for all the special relationships we have shared together. My wife and I feel the time has arrived to catchup on missed family gatherings and have quality time with our children and grandchildren.

Routine follow-up care and allergy injection therapy will end on December 23, 2025. Our office will be open only for urgent issues between January 5-15, 2026. Additionally, the office will be open on a limited basis until March 1, 2026 to manage administrative issues to ensure a smooth transition of care for our patients.

I encourage that you find an established Board Certified Allergy/ Immunology physician to continue your current care program. Our office staff will be available to assist you with your medical records and any questions you may have during this transition.

I want to sincerely thank you for trusting me with your health journey. Many of you I have known for over 38 years since I first came to Arizona. I have been blessed to have been able to take care of three generations of many families. These are some of the memories I will forever treasure. Serving you has been the honor of a lifetime, and I will always cherish the wonderful memories and connections made throughout my career.

With heartfelt gratitude and best wishes for your continued health,

Allan M. Wachter, M.D.
